

NADIO GME Requirements Review Committee

The NADIO GME Requirements Review Committee is charged with the responsibility for review and comment to proposed changes in requirements by accrediting organizations such as the ACGME ABMS, AAMC, NRMP, etc. that may have a substantial impact on Sponsoring Institutions and/or the responsibilities and authority of the DIO. Any response to proposed requirements from the committee will be forwarded to the NADIO Executive Committee for review, approval, and submission to the appropriate accrediting organization.

Core Responsibilities:

1. The committee chair and/or designee will review proposed changes to requirements as announced by the accrediting organization.
2. The committee chair or designee will be responsible for soliciting comments to the proposed requirements from NADIO membership.
3. The committee will compose a proposed response to the requirements based on membership comments.
4. The proposed response will be sent to the NADIO Executive Committee for review and final approval.
5. The NADIO President or designee will submit the approved response to the accrediting body and post the response on the NADIO website.
