

## **NADIO Membership Committee**

The NADIO Membership Committee plays a crucial role in supporting NADIO's mission. It does so by fostering a robust membership, which is achieved through the recruitment and retention of a diverse, inclusive, and active membership of DIOs and other educational leaders as defined by the Executive Committee. The Membership Committee collaborates with other NADIO leaders, including the Executive Committee or other NADIO committees, to devise and execute plans, policies, and processes pertaining to membership.

### **Core Responsibilities:**

1. **Defining Membership Requirements:** The Committee will monitor and oversee various membership categories and may recommend adding, modifying, or removing them to the Executive Committee. The Committee will also monitor the application review and approval process for any class of membership or advancement or transfer from one membership class to another.
2. **Expanding Membership:** The Committee will review membership rosters and devise strategies and actions to enhance membership and engagement among DIOs, and other educational leaders as defined by the Committee and the Executive Committee. The Committee will engage with other relevant organizations to increase membership.
1. **Other Actions:** The Committee will carry out different actions, as needed, in the interest of the membership and the organization as defined by the Executive Committee.
